India	Dalit(Scheduled caste population), indigenous mountain communities	India, Himalayan Hill state of Uttaranchal in North India, Altitude of 6000 ft asl, in remote and backward villages of Nainital and Bageshwar district of the state. The area consists of rugged muntain terrain, where forest cover has been denuded due to overfelling and lack of proper management practices. Additionally, the region experiences severe drought and cold conditions, with only one crop possible for subsistence,. Land holdings are small and returns from agriculture are low. Traditional activities of the dalit population are basketry based on the natural resources of the region. State notifications had deprived them of their access to these resources. But this access has been restored in a limited way through our campaign research and advocacy initiatives.
India	Tribal communities	Dumaka, Deoghar, Jamtara, Sahabjunj, Pakur, Godda and Singhbhum district in Jharkhand
	Santhal, Kol, Paharia.
